

Dual Laser InfraRed Thermometers

Dual Laser Targeting

['] Indicates ideal measuring distance. Choose from 12" or 30" distance model where two laser points converge to 1" target spot

Features:

- Dual laser for accurate target
- White backlit dual LCD display
- Fast 0.15 second response time with Max display
- Adjustable emissivity increases measurement accuracy for different surface
- Adjustable High/Low set points with audible alarm alerts user when temperature exceeds the programmed set points
- Lock function for continuous readings
- Double molded housing
- Complete with pouch case and 9V battery

Fast response captures hot spots

Max hold indicates and holds the peak temperature for easy identification of hot spots

Two laser points converge at a distance of 30"/76.2cm (model 42512) or 12"/30.5cm (model 42511) and form a 1" (2.5cm) spot.

Ordering Information:

4251112" distance Dual Laser InfraRed Thermometer

- 42512-NIST....30" dist. Dual Laser InfraRed Thermometer w/ Calibration Traceable to NIST.

Dual Laser

Our Fastest and Easiest-to-use IR Thermometer

✓ Dual lasers identify exact

measuring spot when they converge to a single spot

✓ 30" or 12" distance models

✓ Fast response is ideal for

ture

quick checks of multiple spots in a process or for catching spikes in tempera-
